We are pleased to recommend the company "MEP Engineering" as a Partner on Any of your Engineering projects.

The company "MEP Engineering" provides consulting and building Engineering design services and has been our Partner since 2013. I have personally known the owners of MEP Engineering for the past 22 years.

In association with MEP Engineering "Green Design Society" successfully implemented numerous projects over the years; Alcopa building of 1,000 sq. m. in 2015, MEGA Ekaterinburg Commercial Upgrade of 15,000 sq. m. in 2016-2017, Nike office Fit-out of 2,500 sq. m. in 2016 and Apple office Fit-out of 2,900 sq. m. in 2017 are among them. We currently have three active contracts with MEP Engineering.

During this period MEP Engineering continuously demonstrates the highest level of professional responsibility, outstanding approach to non-standard technical solutions, proactive response to any changes and queries.

Highly-qualified personal of the company and managerial potential provide excellent quality of services.

We would like to mention attentive attitude to the Customer and ability to perform in tight deadlines.

On behalf of "Green Design Society", we strongly recommend MEP Engineering as a reliable and stable business partner in the sphere of building engineering and design.
